

Translation of Saab Car Museum invitation

Launch of the book about Saab Car Pioneer Gunnar Ljungström

The book will be launched on October 20 at 11.00 at Saab Car Museum in Trollhättan.

Saabs former Technical Director Gunnar Larsson was employed in the 1960s by Gunnar Ljungström who also later acted as mentor for him.

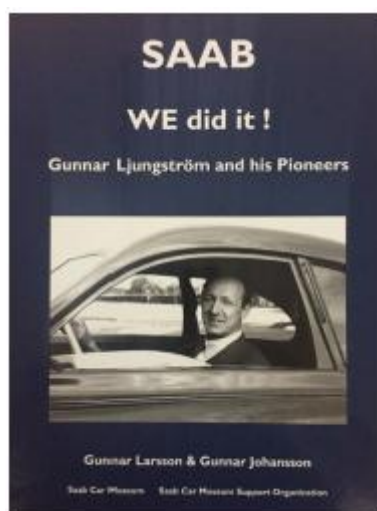

Gunnar Larsson and his co-author Gunnar Johansson give you a unique insight of the thinking and philosophy of Ljungström which resulted in Saab 92-96 and Saab 99. Cars with a unique potential for future development.

The book has a lot of material not published earlier, e.g. wind tunnel tests of Saab 92001 at KTH (Royal Institute of Technology in Stockholm), pioneer colleagues at Saab and a lot more. A must for the Saab connoisseur.

Saab Car Museum will be open without entrance fee 11.00-16.00 and the authors will sign books purchased at this première day.

The authors will have presentations of the book at 12.00 and 14.00.

This book is a project initiative by Gunnar Larsson and Saab Car Museum Support Organization.
